

FRONT MOUNT SADDLE TANKS

- The 1000 gal. saddle tanks are one of the largest in the industry and one of the most road-friendly for width.
- The 500 gal. deep V saddle tanks fit most models of tractors, keeps you under 15 ft. width, plus fit the new series of John Deere, Case IH, New Holland, and Caterpillar.
- 10 in. or 16 in. screw-in fill opening, optional 2 in. bottom fill, dual agitation, dual suction, all types of plumbing, sprayer tips, and all sizes of pumps and brands.
- Unlike most other sidemount systems, the tanks are designed to fit close to the frame, so there is less stress on your tractor.
- Computrol I, II, III, V and Raven controls.
- Auto booms, light bars, and other electrical components available.
- **WE CUSTOM BUILD TO FIT YOUR NEEDS.**
